# INSURANCE COMMISSIONER'S REPORT.

STATE OF NORTH CAROLINA,
INSURANCE DEPARTMENT,
RALEIGH, N. C., April 1, 1903.

*To His Excellency,* CHARLES B. AYCOCK,
*Governor of North Carolina.*

DEAR SIR:—As required by law, I have the honor to submit to your Excellency the Annual Report of the Insurance Department for the year ending April 1, 1903, and to include therein such data and information as is called for by law, including the statements of the different insurance companies and corporations reporting to this Department, as shown by the sworn statements of their officers filed therewith for the year ending December 31, 1902.

## THE DEPARTMENT.

The Insurance Department was formed in 1899, as set forth under chapter 54, Public Laws of 1899. Since that time the law governing the Department and prescribing the duties of the Insurance Commissioner have been amended by the laws of 1901 and 1903, and the duties prescribed for the Insurance Commissioner so increased as to make this one of the most important departments of the State government, not only in the amount of revenue annually collected for the State, but in value to the citizens in the proper supervision of the different corporations entrusted to it by law. As stated in a former report, the law provides that the Department shall have charge of the licensure and supervision of all companies, associations, orders and individuals doing the business of life, fire, accident, surety, health, burglary, title, guarantee, and all other kinds of insurance, as well as of bond, investment, dividend, registry, title, guaranty, debenture and such like companies or associations (not strictly insurance companies), and provides that all such companies or associations, whether domestic or foreign, must be licensed by this Department before they can do business in this State. After

they are licensed the Department has under the law supervision over them and their business in the State, and no company or agent can legally do any business in the State until licensed by this Department. The Department is also in charge of the collection of all licenses, taxes and fees imposed by the State upon such companies. There was also given as one of the duties of the Department the investigation of all suspicious fires occurring in the State, and there has been added to this that of inspecting and placing insurance upon all property owned by the State. The Department is in charge of the Insurance Commissioner, and he is allowed a sum not exceeding $1,600 for the employment of the necessary clerical force. This is totally inadequate, as it only enables him to employ one chief clerk and a stenographer. The clerical work of the Department is of such a character that it must necessarily be entrusted to competent hands, and requires clerks of a high order of attainments and experience.

COMPARISON.

Before the formation of the Department in 1899, when the present Commissioner was put in charge, the duties were performed by the Secretary of State, and he received therefor certain fees prescribed by law. In 1898, the year before the formation of this Department, the Secretary of State reported as collected and paid into the State treasury $84,879.28. Because of the other duties imposed upon the Secretary of State and the imperfect insurance laws, very little, if anything, was done in the way of supervising and looking after the various corporations. His whole duties in this work were confined almost entirely to the collection of the taxes and licenses.

Since the formation of the Insurance Department there has been collected and paid into the State treasury for the year 1899, $92,865.21; for the year 1900, $91,072.92; for the year 1901, $132,034.03; for the year 1902, $153,667.12; total in four years, $469,639.28.

Of course it will be understood that the above figures include only the amounts collected and paid into the State treasury, and do not include the special amounts collected of insurance companies for the publication of their statements and the investigation of fires.

These are special funds and must be collected and used only for the special objects named. The cost of the investigation of fires in the State is paid by the insurance companies and does not cost the State or her citizens one cent.

The whole cost of the Department, including the salary of the Commissioner and clerks, amounts to very little more, if anything, than was formerly collected by the Secretary of State for his personal fees. And the amount now collected and paid into the State treasury of the class of fees that were formerly under the law paid to the Secretary of State for his services, amount annually to about double the cost of the Department. That the Department has succeeded is a matter of pride and congratulation upon the part of those who have had a hand in its work. But the work has been and is still hampered by the lack of sufficient appropriations to provide for its necessities.

## COMPANIES LICENSED IN 1902.

The following companies were admitted to do business in the State under the general insurance law, where they had not been already admitted, and were licensed for the year ending April 1, 1903:

### LIFE COMPANIES.

Aetna Life.
Bankers Life Insurance Co.
Breadwinners Mutual Benevolent.
Carolina Benevolent Association.
Eastern Insurance Co.
Equitable Life Assurance Society.
Fidelity Mutual.
Germania Life.
Hartford Life.
Home Life of New York.
Illinois Life.
Industrial Aid Association.
Life of Virginia.
Manhattan Life.
Maryland.
Massachusetts Mutual Life.
Metropolitan Life.
Michigan Mutual.
Mutual Benefit of Newark.
Mutual Life of New York.
National Life of Vermont.
New York Life.
North Carolina Mutual and Provident.
Northwestern Mutual.
Pacific Mutual.
Penn Mutual.
People's Benevolent and Relief.
People's Mutual Benevolent.
Phœnix Mutual.
Provident Savings.
Prudential of America.
Security Life and Annuity.
Security Mutual Life.
Security Trust and Life.
South Atlantic Life.
State Mutual.
State Mutual Life and Annuity.
State Life of Indiana.
Sun Life of Canada.
Travelers.
Union Central.
Union Mutual Life of Maine.
Washington Life, New York.

FIRE AND FIRE AND MARINE COMPANIES.

Aetna.
American Central, St. Louis.
American of Pennsylvania.
Assurance of America.
Atlanta Home.
British America.
British American.
Cabarrus Mutual Fire.
Citizens of Missouri.
Camden Fire.
Carolina.
Cologne Reinsurance.
Colonial.
Commercial Union.
Continental.
Davidson County Mutual Fire.
Delaware.
Equitable of South Carolina.
Equitable Fire and Marine.
Farmers Mutual Fire.
Fire Association of Philadelphia.
Firemen's of Baltimore.
Fireman's Fund.
Georgia Home.
German Alliance.
German-American.
Germania Fire.
Glens Falls.
Globe and Rutgers Fire Insurance Co.
Greenwich.
Hamburg-Bremen.
Hanover Fire.
Hartford Fire.
Home.
Home Insurance Co. of Greensboro.
Indemnity Fire.
Insurance Co. of North America.
Lafayette Fire.
Liverpool and London and Globe.
London Assurance.
London and Lancashire.
Manchester.
Mecklenburg Farmers Mutual Fire.
Millers Mutual of Pennsylvania.
Moscow Fire.
Munich Reinsurance.
National Fire.
National Standard.
New Hampshire Fire.
New York Underwriters Agency.
Niagara.
North British and Mercantile.
North Carolina Home.
Northern Assurance.
Norwich Union.
Orient.
Palatine of London.
Pamlico Insurance and Banking Co.
Pennsylvania.
Phenix of Brooklyn.
Philadelphia Underwriters.
Phœnix of London.
Phœnix of Hartford.
Piedmont.
Prussian National.
Queen.
Rochester German.
Royal.
Royal Exchange Assurance.
Rowan Mutual Fire.
Saint Paul Fire and Marine.
Salamandra.
Scottish Union and National.
Skandia.
Southern Loan and Trust Co.
Southern Stock Mutual.
Springfield Fire and Marine.
Sun Insurance Office.
Sun of New Orleans.
Teutonia.
Traders of Chicago.
Underwriters of Greensboro.
United States Fire.
Union Assurance Society.
United Mutual Fire.
Virginia Fire and Marine.
Virginia State.
Westchester Fire.
Western Assurance.
Wilmington Underwriters.

ACCIDENT AND SURETY COMPANIES.

Aetna Indemnity.
Aetna Life (Accident).
American Bonding Co.
American Credit-Indemnity.
American Surety of New York.
City Trust, Safe Deposit and Surety Co.
Employers Liability.
Fidelity and Casualty.
Fidelity and Deposit of Maryland.
Hartford Steam Boiler.
Lloyd's Plate Glass.
Maryland Casualty
National Surety Co.
New York Plate Glass Insurance Co.
Ocean Accident and Guarantee.
Park Region Mutual Hail.
Pennsylvania Casualty.
Preferred Accident.
Standard Life and Accident.
Travelers (Accident).
Union Surety and Guaranty.
United States Fidelity and Guaranty.
United States Casualty.
Wachovia Loan and Trust.

FRATERNAL ORDERS.

A. C. L. R. Dept.
American Guild.
Ancient Order United Workmen.
Bankers Union of the World.
Endowment Rank Knights of Pythias.
Family Protective Union.
Fraternities Accident Order.
Grand Fraternity.
Home Circle.
Improved Order Heptasophs.
Jr. Order United American Mechanics.
Knights of Honor.
Knights and Ladies of Honor.
Ladies of the Maccabees of the World.
Masonic Mutual Relief.
Modern Puritans.
National Union.
Order of Select Knights.
Ridgely Protective Association.
Royal Arcanum.
Royal Benefit Society.
Royal Knights King David.
Sovereign Camp Woodmen of the World.
Supreme Ruling Mystic Circle.

RECOMMENDATIONS OF COMMISSIONER TO LEGISLATURE.

As required by law, I had the honor, on the 27th day of January, 1903, to make to your Excellency, to be transmitted to the General Assembly, then in session at Raleigh, the following recommendations, which you promptly sent to both Houses, accompanied by a special message:

STATE OF NORTH CAROLINA,
INSURANCE DEPARTMENT,
RALEIGH, January 27, 1903.

*To His Excellency,* CHARLES B. AYCOCK,
*Governor of North Carolina.*

The general insurance law makes it the duty of the Insurance Commissioner to report to the General Assembly any changes which in his opinion should be made in laws relating to insurance and other subjects appertaining to his Department, and provides that these recommendations shall be made to the Governor, to be by him transmitted to the Legislature.

In discharging this duty, I desire to submit to you, to be transmitted to the General Assembly, the following statements and suggestions in regard to my Department and the laws governing the work of the same:

STATEMENT.

The general insurance laws now on our statute books are looked upon as the best insurance laws of any Southern State, and justly regarded as admirably adapted to the conditions prevailing in the South. They have been copied and adopted by the State of Mississippi and are now being urged for adoption by the Legislatures of Virginia and South Carolina. As a revenue producer the law and Department are a success, as is shown by the fact that before the adoption of our present laws, and formation of the Department, the highest amount ever collected, as licenses and taxes, from insurance companies in any one year was about $84,000, and this annual amount has been gradually increased, until it is safe to say that during the present fiscal year in the Department, ending April 1, 1903, there will be collected and paid into the State treasury about $142,000. The success in other respects is equally marked, for while the benefits accruing from a proper supervision of the insurance companies in the State cannot be measured in dollars and cents, they have in the opinion of the Commissioner, and others familiar with the conditions, been much greater and more valuable to the State and her citizens.

RECOMMENDATIONS.

*Life Companies.*

1. The organization of life insurance companies in the State, as well as the immense business done by this class of companies in the State, make it necessary that a full and conservative code of laws should be enacted for the organization and government of life insurance companies. The laws should be amended so as to allow the Honorable Secretary of State to issue charters for life and health insurance companies upon the approval of this Department, as is provided for other classes of insurance companies.

*Clerical Help.*

2. It is necessary for the continued success of the Department that the Commissioner be allowed such a sum as will enable him to employ proper and sufficient help. The handling of the increased revenue passing through the Department, now over $140,000, and the accurate keeping of about two hundred accounts, makes it necessary for the protection of the Commissioner that the money should be handled by a regular cashier and the books kept by a regular book-keeper. This is especially true when it is remembered that the Commissioner must spend nearly one-half of his time from his office, being frequently called away on short notice.

*Investigation of Fires.*

3. The cost of reporting fires and investigating those supposed to be suspicious or of incendiary origin is paid wholly by a tax of one-tenth of one per cent. on the gross receipts of fire insurance companies doing business in the State. This law has been most beneficial to the State and its citizens, and is worthy of being pushed with even greater earnestness and power. It is recommended that this tax be increased, and that the law be so amended that the Commissioner or his representative cannot only punish incendiaries in the State, but also, by frequent and painstaking inspections in the State, remove causes likely to produce fires. These inspections will reduce the number of fires in the State, prevent conflagrations, and ultimately, with the prosecutions for incendiarism, give us further reduced fire insurance rates in the State.

*Insurance on State Property.*

4. The Legislature of 1901 passed an act regulating the insurance of public buildings and other State property (chapter 710, Public Laws of 1901). By this act it is made the duty of the Insurance Commissioner to inspect and pass upon the policies of all insurance placed upon State property, and to keep in his Department a full record of each policy, and there was no provision made for even the necessary expenses of the Commissioner in examining the State property, with which he was not familiar, and yet the examination was necessary before he was in a position to properly discharge the duty imposed. It was also made a misdemeanor for any board or public officer charged with the custody or safe-keeping of any State property to pay any premiums for insurance without the approval of the Commissioner.

The discharge of this duty called for considerable work and some personal expense on the part of the Commissioner, but the wisdom of the act was shown by the fact that three-fourths of all the policies issued had to be corrected by him, and he succeeded in having eliminated from them all restrictive clauses. It is recommended by the Commissioner that some regular plan be adopted for the fixing of the amount and the placing of insurance on State property. This is made advisable because it will appear from examination that the different properties of the State are now very unequally covered by insurance. The present plan as outlined above, if continued, should be materially altered and improved. Another plan of having a schedule prepared and of insurance placed by some officer or board in the State upon all the State property is worthy of consideration. When this is done the expenses thereof can be paid out of the State treasury for all the insurance or the amounts can be certified to the different departments or boards, to be paid out of the appropriations allowed, as the premiums are now paid. Of course the details of either plan can be arranged by your body, and the Commissioner is ready to furnish any information or data that may be desired.

*Fraternal Orders.*

5. The Legislature of 1901, by its legislation in regard to fraternal orders, did much to improve the character of these orders operating

in the State, but the Commissioner unhesitatingly recommends that more be required of these fraternal orders, and, in fact, of all associations and orders doing industrial and cheap life, accident or health insurance, especially where they issue small policies and draw principally from the working classes in our State. In the minds of many there is an idea that little should be required of these orders and associations, but really they should be more strictly supervised and watched, until they cease to be used by unscrupulous promoters as mediums for defrauding our working people.

*Insurance in Outside Companies.*

6. The Department is still troubled with attempts of outside unlicensed companies to do business in the State. The laws should be made more stringent as to these and outside brokers as well. It might be well to authorize the Commissioner to require reports from insurers where thought advisable.

*Fire-escapes.*

7. Without any law on the subject, there is a lamentable lack of fire-escapes in our State. A law should be passed requiring all buildings of three stories or over in which people live, do business or congregate to be provided with proper exits and fire-escapes, and authorize the Insurance Commissioner and authorities of cities and towns to require it.

*Laws on Arson.*

8. The Commissioner, because in the discharge of his duties he is frequently brought in contact with our laws for the punishment of burnings, desires to call the attention of the General Assembly to our laws on arson and ask that they be amended and improved, as is much needed.

*No Adverse Legislation.*

9. The insurance business in the State, involving as it does the good and protection of the citizens of the State and their property, is in remarkably good condition, and generally satisfactory to the people and the companies. Our home companies are being protected and fostered, and show commendable increase and growth. Foreign companies are being treated with justice and fairness, while

the fire rates prevailing here, though complained of by some of our people, are lower and fairer than those of any other Southern State. With these conditions, brought about by just laws and a strict supervision, and with a large increase of revenue from insurance companies each year, the Commissioner feels that the wisdom of the present General Assembly will prompt them to follow the course of the last two General Assemblies in improving our already fair and just insurance laws and in enacting no harsh or restrictive laws, calculated not to help, but to only hurt the State, her citizens and the companies organized or operating here.

Respectfully submitted.

---

## NEW LAWS.

At no time since the enactment of the general insurance laws by the General Assembly in 1899 has there been enacted so much or so important an amount of legislation affecting this Department. I deem it unnecessary to go fully into this legislation more than to casually refer to it. A law was enacted in regard to the organization of life and other companies so that all companies doing an insurance business can now be chartered in the office of the Secretary of State upon the approval of their proposed articles of incorporation by the Insurance Commissioner. The Legislature also enacted a law governing the regulation of life companies. They also added an additional amount of $600.00 to the amount of $1,000.00 heretofore allowed annually for the purpose of employing clerical help in the Insurance Department. This was a great help to the Department, but still it leaves the Department with an inadequate force to do the work that should be done in the Department with a proper regard to its importance and value and with profit to the citizens of the State. The Legislature also took a step forward in regard to the inspection of all buildings in the cities and towns of the State. Under the law enacted it is made the duty of the officers of each city or town to have quarterly inspections of the portions of their cities within the fire limits and an annual inspection of every building within the city or town. They also increased the amount to cover these inspections and the cost of investigating suspicious fires. The Legislature also provided that the Insurance Commissioner and

the officer or board having any property of the State in charge should agree upon the amount of insurance to be carried, and that then the insurance should be placed by the Commissioner. This is a good step forward in looking after the property of the State and its protection by fire insurance and will no doubt work well. The Commissioner called the attention of the Legislature to the lamentable lack of fire-escapes in our State and recommended a law to be passed requiring all buildings of three stories and over in which people live, do business or congregate to be provided with proper fire-escapes and exits. A proper bill was drawn to this effect, but I regret to say it was ignored by the Legislature. In accordance with the recommendations of the Commissioner certain important changes were made in the laws on arson. An important law was passed known as the resident agent's law, and under this law it was made impossible for a nonresident agent or broker to do the business of fire insurance in the State. The result of this will no doubt be beneficial in increasing the revenues of the State, in protecting the insurance agents of the State, and in saving the citizens of the State from being defrauded by "wild-cat" and "underground" insurance companies.

### INVESTIGATION OF FIRES.

The law in regard to the investigation of all suspicious fires in the State has been amended by the last Legislature, so that it becomes now not only a law for the reporting of all fires, and the investigation of those of suspicious origin, but one requiring the inspection of all buildings in the cities and towns of the State. Under the law as it now is, it is the duty of the officers of each city and town to thoroughly inspect quarterly every building within the fire limits of their city or town and annually all buildings within the limits of the city. The value of this law and its far-reaching effects in saving from loss by fire the property within the State and the ultimate reduction of fire rates can hardly be estimated. The idea of having all fires reported is not only that those of suspicious origin may be investigated under the direction of the Commissioner, but that there may be prepared and kept proper statistics of the character, origin, cause, etc., of all fires occurring within the State. Because of the short clerical force of the Department the Commissioner

has found it impossible up to this time to accomplish much in the way of gathering and compiling statistics. The expenses of this law are provided for by the tax of one-fifth of one per cent. on the gross receipts of all fire companies doing business in the State. It is thus paid by the companies and not by the citizens of the State. There has been collected for the past year $1,845.46 and paid out $1,376.15 on this account, as is shown by the items on the books of the Department.

A proper enforcement of this law depends largely upon the aid extended to the Commissioner by the different officers of the cities and towns throughout the State, as well as by the sheriffs of the different counties. And while urging upon these officers the importance of this law, and its great value to the State and her citizens, the Commissioner desires to extend his thanks to them for the manner in which they have aided him in the past.

### FRATERNAL ORDERS.

The amendments passed by the last Legislature to the law in regard to Fraternal Orders and Mutual Companies will prove of great value if they can be properly enforced. The best of these orders and companies will be benefited by this law and its observance, and many of these small mutual or assessment associations that do not provide safe protection to the citizens of the State will be forced to so correct their methods and conduct their business as to render this protection to the class of our citizens most largely patronizing them, or else be forced to stop doing business in the State.

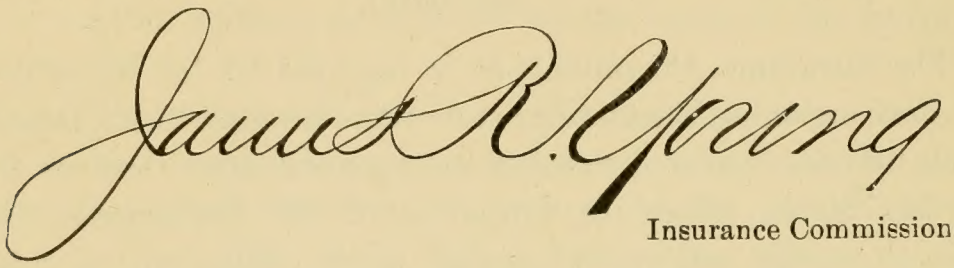
### STATEMENTS AND TABLES.

It is made the duty of the Department to gather and keep full information as to the character and financial condition of each company, association or order doing business in the State. They are all required to file annually, as of December 31, a statement in detail of their business for the year. These statements are filed with the Department and abstracts of the same are published in the newspapers of the State, and also filed with the Clerk of the Superior Court of each county. The statements herein are those filed by the officers of the companies for the past year ending Decem-

ber 31, 1902, and may be examined with interest by those who desire to inform themselves as to the assets, investments and real condition of these companies and associations. The statistical tables contained in the report are so prepared as to give much information of interest and value to the citizens, agents and companies in the State.

## FINANCIAL.

The Insurance Commissioner is required by law to collect from all the companies, associations and orders licensed in his Department, such licenses, fees and taxes as are imposed upon them by the laws of this State. Since the formation of this Department there has been a regular and rapid increase in the collections in this State, and the Commissioner takes pleasure in reporting as collected by him during the past year and paid to the Hon. State Treasurer monthly:



| | | |
|---|---|---|
| For taxes on gross receipts | $ 113,034.94 | |
| For licenses from companies | 29,463.68 | |
| For fees | 3,711.00 | |
| For licenses for subagents | 7,457.50 | |
| Total | | $153,667.12 |
| For publication of annual statements in newspapers | $ 1,512.00 | |
| For investigation of fires | 1,845.46 | 3,357.46 |
| Total | | $157,024.58 |

## CONCLUSION.

The natural increase of the work of the Department has made it one not only of much labor but of great responsibility, and both of these have been largely increased by the new duties imposed upon the Department under the laws passed by the last Legislature. The Commissioner and those associated with him have put forth every effort, not only to perform the duties called for in the law but to make the service of increased value to the citizens of the State and those doing business with the Department by the efficiency and promptness with which the work is kept up.

In concluding this report the Commissioner desires to bear testimony to the efficient and intelligent aid extended him by his associates, Mr. D. H. Milton, chief clerk, and Miss Ida Montgomery, clerk and stenographer, as much credit is due them for their faithful work.

Respectfully submitted,

Insurance Commissioner.

# STATISTICAL TABLES

## RELATING TO FIRE AND MARINE INSURANCE COMPANIES.

# INSURANCE COMMISSIONER'S REPORT.

STATE OF NORTH CAROLINA,
INSURANCE DEPARTMENT,
RALEIGH, N. C., April 1, 1904.

*To His Excellency,* CHARLES B. AYCOCK,
*Governor of North Carolina.*

DEAR SIR:—The General Insurance Law, sec. 6, says:

The Commissioner shall annually submit to the Governor a report of his official acts, and of the condition of all insurance and other companies, associations or orders under his department doing business in this State, with a condensed statement of their reports made to him, arranged in proper form for printing, together with a statement of the licenses, taxes and fees received by him from such companies and paid by him to the State Treasurer; and he shall biennially submit to the General Assembly, through the Governor, such annual reports and statements.

In accordance with this law and custom I have the honor to submit to your Excellency the annual report of the Insurance Department for the fiscal year ending April 1, 1904.

## DEPARTMENT.

The authority and work of the department is well stated in a former report, and I repeat what was said then, as follows:

The Insurance Department was formed in 1899, as set forth under chapter 54, Public Laws of 1899. Since that time the law governing the department and prescribing the duties of the Insurance Commissioner have been amended by the Laws of 1901 and 1903, and the duties prescribed for the Insurance Commissioner so increased as to make this one of the most important departments of the State government, not only in the amount of revenue annually collected for the State, but in value to the citizens in the proper supervision of the different corporations entrusted to it by law. As stated in a former report, the law provides that the department shall have charge of the licensure and supervision of all companies, associations, orders and individuals doing the business of life, fire, accident, surety, health, burglary, title, guarantee and all other kinds of insurance, as well as of bond, investment, dividend, registry, title, guaranty, debenture and such like companies or associations (not strictly insurance companies), and provides that all such companies or associations, whether domestic or foreign, must be

licensed by this department before they can do business in this State. After they are licensed the department has under the law supervision over them and their business in the State, and no company or agent can legally do any business in the State until licensed by this department. The department is also in charge of the collection of all licenses, taxes and fees imposed by the State upon such companies. There was also given as one of the duties of the department the investigation of all suspicious fires occurring in the State, and there has been added to this that of inspecting and placing insurance upon all property owned by the State.

The Insurance Commissioner has charge of the work of the department and the duties of the office as laid down in the General Insurance Laws. During the past year this work has been done as well as could reasonably be expected, considering the inadequate amount allowed for the employment of clerical force in the department, and it is a pleasure to note the continued improvement in the insurance business in the State, the better protection of the citizens of the State from frauds and impositions, and the increased amount of revenue to the State. The total amount of revenue paid into the Treasury of the State during the present year has amounted to $174,633.60, while additional amounts have been collected for the investigation of fires, $3,762.84, and the publication of annual statements in the newspapers, $1,611.

## COMPANIES ADMITTED.

The following companies and associations were admitted to do business in the state during the year:

### LIFE.

Connecticut Mutual Life, Hartford, Conn.
Contentnea Life, Wilson, N. C.
Piedmont Mutual Life, Greensboro, N. C.
Knights Templar and Masonic Aid Association, Cincinnati, Ohio.
Carolina Mutual Life, Raleigh, N. C.
Workers Mutual Life and Health Insurance Company, New Bern, N. C.

### FIRE.

Stuyvesant Fire Insurance Company, New York City.
Milwaukee Mechanics Insurance Company, Milwaukee, Wis.
High Point Fire Insurance Company, High Point, N. C.
Indianapolis Fire Insurance Company, Indianapolis, Ind.
American Insurance Company, Boston, Mass.
National Union Fire Insurance Company, Pittsburg, Pa.
Providence-Washington Insurance Company, Providence, R. I.
Atlanta-Birmingham Fire Insurance Company, Atlanta, Ga.
Rossia Insurance Company, Russia.

MISCELLANEOUS.

Employers Indemnity Company, Philadelphia, Pa.
Metropolitan Plate-glass Insurance Company, New York.
Title Guaranty and Trust Company, Scranton, Pa.
Federal Union Surety Company, Indianapolis, Ind.
Southern States Trust Company, Charlotte, N. C.

FRATERNAL ORDERS.

National Fraternal Union, Murray, Ky.
Knights of Gideon Mutual Society, Goldsboro, N. C.
American Union Benefit Association, Kittrell, N. C.
Funeral Benefit Association of the United States, Philadelphia, Pa.
Eminent Household of Columbian Woodmen, Atlanta, Ga.
Masonic Benefit Fund (Colored), Raleigh, N. C.
Afro-American Union Association, Salisbury, N. C.
Royal Union Association of New Jersey, Trenton, N. J.
Grand Fountain United Order True Reformers, Richmond, Va.
Grand Lodge Independent Order True Reformers, Fayetteville, N. C.

STOPPED BUSINESS.

The following companies or associations either did not renew their license at the close of the year 1902, or ceased to do business in the State during the past year:

ASSESSMENT LIFE.

Knights Templar and Masonic Aid Association, Cincinnati, Ohio.

FIRE.

Firemen's Insurance Company, Baltimore, Md.
Greenwich Insurance Company, New York.
Lafayette Insurance Company, New York.
United Fire, Raleigh, N. C.
Wilmington Underwriters Insurance Company, Wilmington, N. C.
National Standard, New York City.

SURETY.

Union Surety and Guaranty Company, Philadelphia, Pa.

FRATERNAL ORDERS.

Family Protective Union, Boston, Mass.

The Wilmington Underwriters went into liquidation at the beginning of 1904 and the National Standard was merged with the Assurance of America. The United Fire and Union Surety and Guaranty Companies went into the hands of receivers. As a result of the great

conflagration in Baltimore the Firemen's Insurance Company of Baltimore went into the hands of a receiver and the Greenwich and Lafayette stopped business.

### COMPANIES LICENSED.

INVESTIGATION OF FIRES AND INSPECTION OF BUILDINGS.

The inspection of buildings and investigation of suspicious fires in the State has received the attention of the Commissioner during the past year, and the work has been of decided value to the State in punishing criminals and tending to lessen the number of fires. In reference to this subject, I do not know that I can better express its object under the law than by quoting an extract from the last report of this department, as follows:

The law in regard to the investigation of all suspicious fires in the State has been amended by the last Legislature, so that it becomes now not only a law for the reporting of all fires and the investigation of those of suspicious origin, but

one requiring the inspection of all buildings in the cities and towns of the State. Under the law as it now is, it is the duty of the officers of each city and town to thoroughly inspect, quarterly, every building within the fire limits of their city or town, and, annually, all buildings within the limits of the city. The value of this law and its far-reaching effects in saving from loss by fire the property within the State, and the ultimate reduction of fire rates, can hardly be estimated. The idea of having all fires reported is not only that those of suspicious origin may be investigated under the direction of the Commissioner, but that there may be prepared and kept proper statistics of the character, origin, cause, etc., of all fires occurring within the State. Because of the short clerical force of the department, the Commissioner has found it impossible up to this time to accomplish much in the way of gathering and compiling statistics.

The expenses attending the investigation of fires in the State are paid by a tax of one-fifth of one per cent. on the gross receipts of all fire companies doing business in the State, and does not cost the State or her citizens one cent. There has been collected for the past year $3,762.84 and paid out $2,700.09 in the matter of investigating fires and the inspection of buildings. The items that go to make up this amount are shown on the books of the department. It is to be hoped that as the fire insurance business in the State increases the receipts from this source will enable the Commissioner to employ for all his time a competent man who, when not engaged in investigating fires and seeking evidence against "firebugs," shall be employed in inspecting, with the Chiefs of the Fire Departments of the State, all buildings and premises in our cities and towns. Nothing will do more to decrease our fire waste and lessen our insurance rates. It is a pleasure to the Commissioner to be able to report a decided progress in the investigation of fires and in the inspection of buildings. The officers of the different cities and towns throughout the State and the sheriffs of the different counties are becoming more and more interested in this matter and are showing some zeal in the discharge of the duties imposed upon them, under the act for the Investigation of Fires and the Inspection of Buildings.

## FRATERNAL ORDERS.

The Legislature has considerably improved the law governing this class of insurance associations, and under the law as it now stands much has been accomplished in the way of improving the character of the business and the protection offered to the citizens of the State.

The trouble still remains that the law is not sufficiently strict in regard to the organization of these associations and their admission to do business in the State. Too many very small ones are allowed to be formed in the State, and their work in the end can but result in loss to the citizens of the State who patronize them. The Commissioner during the last year has refused the application of several associations to come into the State, and feels that he was justified in so doing because he gave the citizens of the State the benefit of any doubt in regard to the character of the protection, as that offered was, in his opinion, even less than is usually received from this class of associations. Some further legislation is needed especially as to the size of the associations allowed to operate and the collection and management of the funds collected. Every association should be required to collect and keep separate the funds for paying losses and expenses, and not be allowed to use funds collected for benefits for expenses. No man or set of men should be allowed to charter or run an association in this State as a fraternal order unless it is made to appear beyond a doubt that it is not a money-making scheme or run for the support of the promoters or officers.

### INSURANCE OF STATE PROPERTY.

The proper protection of the property of the State from fire by insurance is one that calls for a careful and painstaking work. The Legislature of 1901 by an act required that the policies of all public buildings, and other State property, should be approved by the Insurance Commissioner of the State before it was lawful for the premiums therefor to be paid. This caused a considerable amount of work to be laid upon the department, besides considerable expense personally to the Commissioner in examining the State property, as there was no provision made for even the necessary expenses. The Legislature of 1903 amended this act and provided that the Insurance Commissioner and the officer or board having the property in charge should agree as to the amount of insurance to be carried on all State property, and then the Commissioner should be required to place this insurance. In obedience to this law, the Insurance Commissioner called for and received the fire insurance policies on all property in the State, and after consulting with the officers hav-

ing the property in charge agreed upon the amount of insurance to be placed and had policies issued therefor. When the Insurance Commissioner took charge of the placing of insurance upon State property he found the property of the State insured under specific policies as follows:

| *Property.* | *Value.* | *Insurance.* |
|---|---|---|
| Capitol building | $ 500,000.00 | none |
| Supreme Court building and contents | 250,000.00 | $ 62,000.00 |
| Governor's Mansion and furniture | 70,000.00 | 25,500.00 |
| Agricultural building and contents | 200,000.00 | 72,500.00 |
| State Prison building and contents | 1,250,000.00 | none |
| State Prison farm property | 60,000.00 | 40,075.00 |
| Books (Secretary of State) | 40,000.00 | 28,500.00 |
| University of North Carolina | 500,000.00 | 28,500.00 |
| State Normal and Industrial College | 180,000.00 | 75,550.00 |
| A. & M. College at Raleigh | 225,000.00 | 48,450.00 |
| A. & M. College (colored) | 70,000.00 | 40,425.00 |
| Blind Institution (white) at Raleigh | 120,000.00 | 9,500.00 |
| D. and D. and B. Institution (colored) | 55,000.00 | 5,750.00 |
| D. and D. Institution (white) at Morganton | 180,000.00 | 49,500.00 |
| State Hospital at Raleigh | 300,000.00 | 46,550.00 |
| State Hospital at Morganton | 650,000.00 | 12,000.00 |
| State Hospital (colored) at Goldsboro | 170,000.00 | 83,675.00 |
| Total | $4,820,000.00 | $664,475.00 |

AMOUNT NOW INSURED.

The Commissioner, after consulting with the different officers having the property in charge, made out a schedule for each institution and placed under these schedules the insurance upon the property of said institution for the amount agreed upon. The Commissioner also took up with the insurance companies the rates being charged and the clauses being inserted in policies on State property, and agreed upon the proper rating under these schedules and also as to what clauses should be used in policies covering State property. The following amount of insurance is now being carried upon the properties of the State:

| *Property.* | *Value.* | *Insurance.* |
|---|---|---|
| Capitol building | $ 500,000.00 | none |
| Governor's Mansion and furniture | 70,000.00 | $ 25,500.00 |
| Supreme Court building and contents | 250,000.00 | 62,000.00 |
| Agricultural building and contents | 200,000.00 | 72,500.00 |
| State Prison building and contents | 1,250,000.00 | none |
| State Prison farm property | 60,000.00 | 40,075.00 |
| Books (Secretary of State) | 40,000.00 | 28,500.00 |
| University of North Carolina | 500,000.00 | 28,500.00 |
| State Normal and Industrial College | 240,000.00 | 112,037.37 |
| A. & M. College at Raleigh | 225,000.00 | 104,950.00 |
| A. & M. College (colored) | 70,000.00 | 51,425.00 |
| Blind Institution (white) at Raleigh | 120,000.00 | 30,000.00 |
| D. and D. and Blind Institution (colored) | 55,000.00 | 16,200.00 |
| D. and D. Institution at Morganton | 180,000.00 | 52,500.00 |
| State Hospital at Raleigh | 300,000.00 | 48,850.00 |
| State Hospital at Morganton | 920,000.00 | 100,000.00 |
| State Hospital (colored) at Goldsboro | 200,000.00 | 84,700.00 |
| Total | $5,180,000.00 | $857,737.37 |

While the present plan is a vast improvement upon the plan heretofore in use in placing insurance on State property, still there are perhaps other ways in which the matter could be still further improved and to which the attention of the Legislature will no doubt be called at the proper time.

## CHARTERS.

Under the law a company or association can be chartered in the State to do any kind of insurance business where the proposed articles of incorporation are submitted to and approved by the Insurance Commissioner and by him certified to the Honorable Secretary of State. When this is done the charter can be issued from the office of the Secretary of State just as they are to other corporations.

The proposed articles of incorporation of the following companies and associations were during the year submitted to and examined and approved by the Commissioner and certified to the office of the Secretary of State to be chartered.

The Benevolent and Charitable Brother Insurance Company, Washington, N. C.

Some additional requirements for charters should be adopted by the Legislature, and then the time of the General Assembly should not be taken up with passing upon and enacting charters of this character. In almost every instance they are asked for from the General Assembly in order that some special feature of doubtful propriety can be inserted or that the charter may be kept for the purpose of traffic.

UNITED FIRE INSURANCE COMPANY.

The history of this company furnishes a lesson to the State and emphasizes the importance of having charters thoroughly examined before they are issued. This company was first chartered as The Home Protection Insurance Company, and after running awhile by that name it was compelled to stop business. Its charter was amended by the Legislature of 1903 and the name changed to the United Mutual Fire Insurance Company. The charter was then sold to some Boston people and they undertook to run an insurance company for the writing of surplus lines. After repeated attempts to have the company comply fully with the law and accumulate sufficient funds in proper securities for the protection of its policy holders, the Commissioner deemed it best to ask the courts to appoint a receiver for the company. It is now in the hands of a receiver, Mr. S. Brown Shepherd, who is winding up the affairs of the company under the direction of the courts.

VIOLATIONS.

Under the law it is made the duty of the Commissioner to seek out and prosecute all violations of the insurance law, and to see that its provisions are carried out by companies and agents doing business in the State. Because of the manner in which the law has been enforced for the last three or four years these violations are becoming less frequent, but during the past year the Commissioner has had a good many violations brought to his attention, and where he could get the evidence, has caused prosecutions to be instituted. These prosecutions often result in the conviction of the persons violating the law. In most cases the judgments have been suspended and held over the violator as a guarantee of his future conduct. Very few of the best companies are guilty of these violations,, and in most cases the guilty ones are the representatives of some association or order that has very little to lose by being classed as a violator of the law. In many cases the citizens representing these associations have been imposed upon by them.

STATEMENTS AND TABLES.

All companies and associations doing business in the State under the supervision of the department are required to file annually, as of December 31, a full statement of their business for the year and their financial condition in detail. These statements must be filed with the department and abstracts of them must be made by the Commissioner and published in some newspaper of the State, and copies sent to the Clerk of the Superior Court of each county, to be filed in his office. It is also made the duty of the department to gather and keep full information as to the character and financial condition of each company, association and order doing business in the State. The statements published in this report are those filed by the officers of the company for the past year ending December 31, 1903. An examination of them will give full information as to the assets, investments and real condition of these companies and associations. The statistical tables are so arranged as to put this information in such shape that it may be easily examined by the citizens of the State as well as the companies doing business in the State and their agents.

### INCREASE OF HOME COMPANIES.

An examination of the statistical tables published in this report will be of special interest to the citizens of the State, as they show not only an increase of the insurance business in the State but a decided progress by home companies. This can be readily seen by comparing the business of North Carolina companies in 1899 with the business as reported herein for last year.

### LIFE COMPANIES.

In 1899 there was no stock or legal reserve life insurance company of this State and only one mutual association. This association reported in assets only $479.35 and total receipts of $2,528.95. In 1903 the North Carolina life companies doing business with a legal reserve report:

| *Assets.* | *Capital.* | *Business in Force.* | *Premiums.* |
|---|---|---|---|
| $876,369.07 | $325,000.00 | $2,238,677.00 | $91,031.20 |

### FIRE COMPANIES.

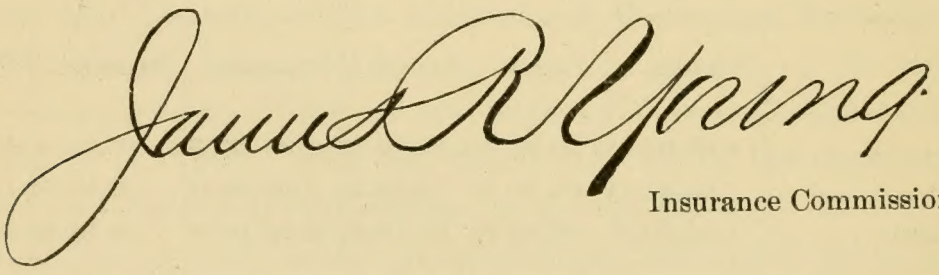
The North Carolina fire companies show a more decided increase. The home fire companies have increased in number and made rapid progress for several years. Their success shows to the citizens of the State the advantage and profit to be gained by investing capital in home fire insurance companies. The reports of these companies show:

| | Assets. | Capital. | Surplus. | Business. | Premiums. | Insurance in Force. |
|---|---|---|---|---|---|---|
| 1903 | $ 2,920,669.94 | $ 962,896.00 | $ 253,865.68 | $40,537,337.45 | $ 785,961.16 | $45,443,635.82 |
| 1899 | 454,456.13 | 277,390.00 | 55,522.06 | 8,295,230.12 | 85,670.54 | 11,982,779.75 |
| Increase | 2,448,213.81 | 685,506.00 | 198,343.62 | 32,242,107.33 | 700,290.62 | 33,460,856.07 |

### FINANCIAL.

All companies, associations and orders of the class placed by law under the supervision of this department are required to be licensed by the Insurance Commissioner before they can do business in the State, and pay to him such licenses, fees and taxes as are prescribed by law. The Commissioner is required to collect these licenses, fees and taxes and pay them to the State Treasurer. The amounts col-

lected by the Commissioner continue to increase each year, and the Commissioner takes pleasure in reporting as collected by him during the past year and paid to the Honorable State Treasurer monthly:



| | | |
|---|---|---|
| For taxes on gross receipts | | $129,519.79 |
| For licenses from companies | | 31,873.81 |
| For fees | | 4,249.50 |
| For licenses for sub-agents | | 8,990.50 |
| Total | | $174,633.60 |
| For publication of annual statements in newspapers | $1,611.00 | |
| For investigation of fires | 3,762.84 | |
| | | 5,373.84 |
| Total | | $184,007.44 |

## CONCLUSION.

Because of the large increase of business and the necessity for more filing and desk room the department is very much crowded, and it is to be hoped that some provision will be made to give the department more room in which to transact the work.

In conclusion, the Commissioner desires to testify to the valuable aid rendered him in the discharge of the increased work and responsibility by his Chief Clerk, Mr. D. H. Milton, and his stenographer and Clerk, Miss Ida Montgomery, as they have been prompt and faithful.

Respectfully submitted,

Insurance Commissioner.

# STATISTICAL TABLES
